

OK-VISE®

Grid Fixturing System

GENERIC FIXTURING COMPONENTS

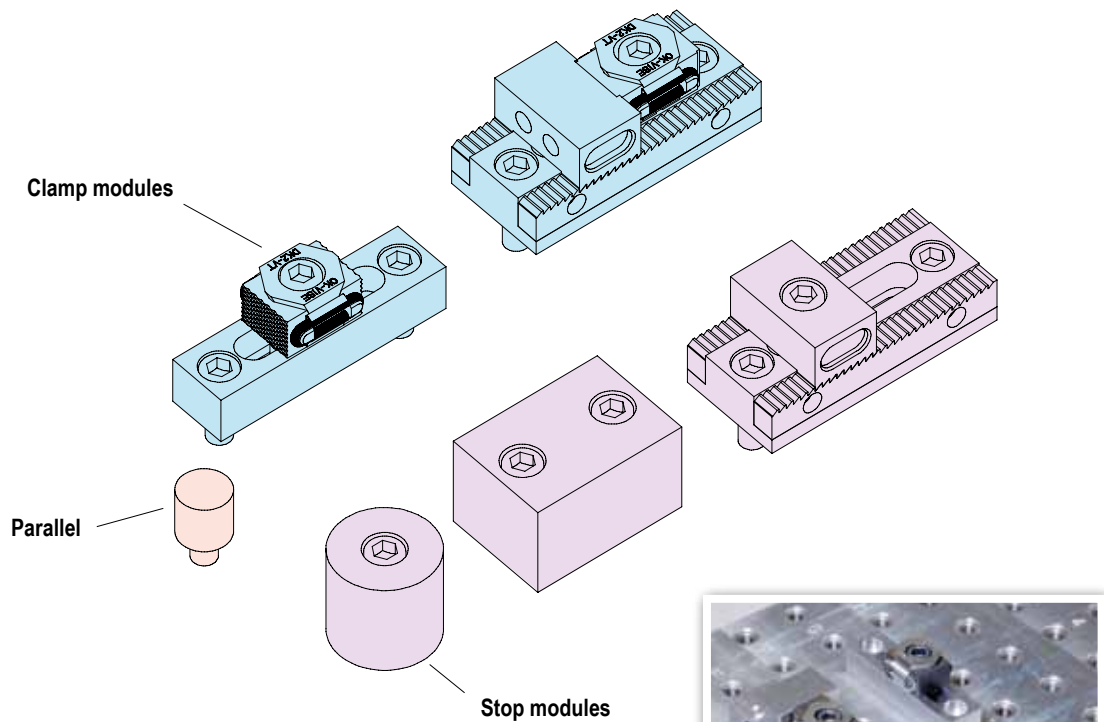

GRID FIXTURING SYSTEM

Grid Fixturing System is the new generic-purpose fixturing system from OK-VISE.

It can be adapted to the grid platforms of leading workholding suppliers. With the OK-VISE Grid Fixturing System very complex forms of workpieces can be also clamped.

On a grid platform you can also combine OK-VISE modules with the components of other suppliers.

GRID SYSTEM COMPONENTS

Clamp module

GCD-DR1	Serrated jaws, D-series
GCD-DS1	Smooth jaws, D-series
GCD-BR1	Serrated jaws, B-series
GCD-BS1	Smooth jaws, B-series
GCS-DS1	Adjustable, Smooth D-series jaw
GCS-DR1	Adjustable, Serrated D-series jaw

Stop module

GS-SF1	Round, smooth
GS-SF2	Rectangular, fixed, smooth
GS-SA1	Adjustable, smooth
GR-RF1	Round, serrated
GR-RF2	Rectangular, fixed, serrated
GR-RA1	Adjustable, serrated

Parallel

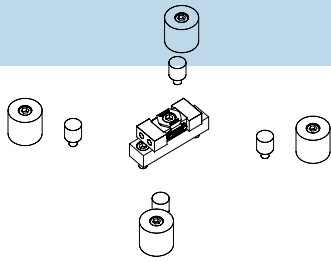

GP-1	Round

GRID SYSTEM APPLICATIONS

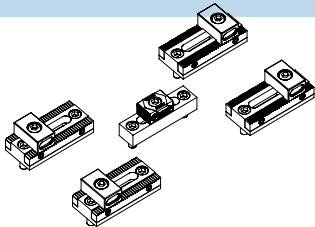

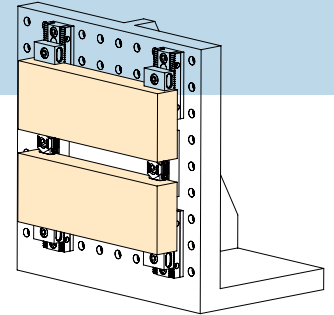

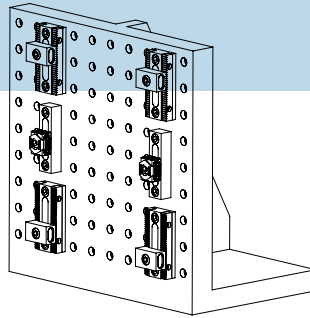

To make selection of the components easier, the OK-VISE team has selected some basic sets to enable an easy start with the Grid system. In the pictures below you can see the solutions done with each set. We recommend platforms of leading suppliers. Grid plate is normally not included in the set.
